Thanks Pat. I asked Greg to put the other reports you had requested on the Sharepoint site-hopefully that gets posted in the near future.

Subject: RE: Ramboll Presentation at USEPA today

Harvey, We would like to have copies of a couple of documents referenced in the powerpoint presentation in November 2018, specifically:

- Braun Intertec (2011) Phase I ESA for Control Data Corporation Site (slide 39)
- Rust Environment & Infrastructure (1994) Trichloroethylene Release Remedial Investigation and Corrective Action Report. (slide 39)

Please forward or send them directly to Pat Hamblin, his address is the same as mine except his mailcode is SRF-6J.

Can you also provide us with the MPCA's site number for the property?

Thank you, Susan

Susan: Daikin Applied has no objection whatever with USEPA sharing data and information we provided to you through the Ramboll report and by yesterday's e-mail transmittal. We actually encourage EPA to do that, as we think public agency attention needs to refocus on the wide area of drinking water aquifer contamination that has occurred most likely from multi-aquifer wells, as the Ramboll presentation shows.

If we can provide any further information, please let us know.

Harvey

*** External email ***

Thank you Harvey. Do you have any objection to EPA sharing the information with our contractors and MPCA? Susan

Pat:

At Susan Prout's request, I am forwarding to you a Link to a "cloud" file that Mindy Hahn of Ramboll has loaded with documents responsive to Susan's request by email on March 7th for certain information. We are happy to provide that information and to clarify that the citations in the Ramboll presentation were not fully complete, i.e. there is more info in fact referenced than the cite details. Thus your second requested file number was literally a reference to Lindberg Heat Treating, but it appears you may be primarily only interested in CDC. In order to make sure we are responsive, Ramboll has sent us a link that includes CDC and Lindberg related materials that were incompletely referenced in the presentation cites.

The MPCA numbers for the CDC site are:
VP11610 (historically under Ceridian Printed Circuits), and VP15290

The Link is in the attached e-mail. Please let me know if there is any trouble encountered with the access it should provide. Also, if we have not provided everything you wanted to see, please let us know and we will locate whatever it may be. We sincerely appreciate your interest in the presentation and related materials.

Harvey

Harvey, I loaded the requested files to this location on OneDrive and set the sharing to "anyone who has this link", so you should be able to forward this.

Thanks,
Mindy

This link will work for anyone.
